

Customer Comes First

Sculptor Stefanie Dorr is giving art lovers a big thrill - with her made-to-measure bespoke dildos.

The hand-carved sex toys - crafted in her studio in Berlin, Germany - can match the exact dimensions of the client to make sure the customer always comes first.

"Handmade is always the best. Even our grandmother knew that. A product made with passion gives more passion," explained Stephanie who

markets the toys as Playstixx.

"I remember seeing one for the first time and wondering why they only came in one shape and one colour," she explained.
